Dear Ms. Chakiris:

The Mississippi Office of Highway Safety is requesting that an **Occupant Protection** assessment be scheduled for this office in support of our planning and anticipated implementation as specified in the FY14 Highway Safety Plan (HSP).

If you can suggest a date based on the Region schedule when this can take place and/or provide us with other directions, I will appreciate it as we move forward with the implementation of the FY14 Highway Safety Plan once final approval is received.

Please let me know if I need to provide you with any additional information in preparation for the assessment.
